

WE CLAIM

1. A luminaire comprising:
 - a) a lower portion,
 - b) an upper portion,
 - c) said lower portion having at least one lamp to illuminate the space therebeneath,
 - d) one or more side panels on one of said portions for supporting at least one advertising sign, and,
 - e) said upper portion having at least one lamp to, in use, illuminate each Advertising sign thereon.
2. A luminaire according to claim 1 wherein said upper portion is dome-shaped above said lower portion, said lower portion being rectangular.
3. A luminaire according to claim 2 wherein each of the corners of said dome-shaped upper portion is provided with a support member and an opaque side panel extends between each pair of support members and curves upwards towards a peak of the dome-shaped upper portion.
4. A luminaire according to claim 1, wherein at least one of said side panels is removable, the lower end of said removable side panel fitting against a rail formed on the top of said lower portion to, in use, hold it in position.
5. A luminaire according to claim 2, wherein at least one of said side panels is removable, the lower end of said removable side panel fitting against a rail formed on the top of said lower portion to, in use, hold it in position.

6. A luminaire according to claims 3, wherein at least one of said side panels is removable, the lower end of said removable side panel fitting against a rail formed on the top of said lower portion to, in use, hold it in position.

7. A luminaire comprising:

- a) a lower portion of square cross-section with four sides and supporting a plurality of fluorescent lamps to illuminate the space therebeneath,
- b) an upwardly projecting rail portion extending along each side of said lower portion,
- c) a dome-shape upper portion above said lower portion and having a curved support tube upstanding at each corner of said lower portion to meet at a peak and form a support structure,
- d) opaque side panels extending between each pair of support tubes and supported thereon to form said dome-shaped upper portion,
- e) a retainer on each support tube to hold said side panels,
- f) at least one removable side panel for supporting an advertising sign, each removable side panel being mounted over one of said opaque side panels,
- g) said upper portion having at least one lamp to illuminate each advertising sign thereon, and
- h) a top wiring, suspension box at said peak.
